7. Note For Listen

OverDrive Listen is a streaming audiobook player, so you'll need an active internet connection to use it. If you'd like to listen to audiobooks without an internet connection, you can still use the OverDrive app or OverDrive for the desktop.

Using OverDrive Listen can consume a lot of data, so if you're on a mobile plan with a data cap, we recommend using a Wi-Fi connection when streaming on your mobile device to avoid data overages.
