**THREE THINGS
WORTH WHILE**

*To the home wired for electricity, three things
that help make life worth while living are available*

- 1st.—THE GLAD IRON with its concentrated heat which can be controlled perfectly by the user without leaving the ironing board. The heat being practically confined to the face of the iron, the room does not become insufferably hot. The heat being constant, there is no need of those tiresome, temper-trying trips from ironing board to stove. GLAD IRONS \$3.50 to \$4.75, according to weight.
- 2d.—THE ELECTRIC COFFEE PERCOLATOR wherein coffee—delightful, delectable coffee—may be brewed. The highest priced coffee, when brewed according to old-time methods, suffers by comparison with lower-priced coffees brewed in the electric percolator. PERCOLATORS \$8.00 and up.
- 3d.—THE ELECTRIC TOASTER—The very name suggests the toothsome, golden brown, pithy product, so difficult to produce by other means, but so easy to produce with an electric Toaster. ELECTRIC TOASTER \$3.75.

PREFACE

THE eighth issue of the ROCHESTER BLUE BOOK possesses some features which we trust will entitle it to retain the high place in public favor that has been accorded its predecessors. We desire especially to thank our lady patrons for their cordial appreciation of our efforts.

The difficulty attending the compiling of such a book can be easily appreciated; and we therefore trust that any omissions will be brought to our notice, that they may be corrected in future. We hope to make the BLUE BOOK as nearly perfect as it is possible to make such a volume.

We do not claim the BLUE BOOK is either a City Directory or absolutely an Elite Directory; neither do we pretend to pass upon the social or financial standing of the parties whose names are contained therein. It is simply a compilation of the most prominent householders and residents published in the most convenient form for reference by our lady patrons.

The title "BLUE BOOK," is given the work because of its blue cover. It does not refer to blue blood as many people suppose. Webster's definition of Blue Book is as follows: "Blue Book—a book containing a list of fashionable addresses."

Please send any information you may have that will aid in keeping the records correct to Dau Publishing Co., 40 West 33d Street, New York City.

FIRST AID TO CLEAN LIVING

"As essential as a bathroom or a kitchen sink."

"The best disease preventive I ever saw."

"It removes all the fine dust."

"The greatest labor-saving device in the house."

These are quotations from a few of the more than two thousand home-owners who have equipped their houses, during the past year, with the

TUEC STATIONARY Air Cleaning System

The TUEC actually makes the house germlessly clean. It not only removes all the dirt and fine dust, carrying it through pipes to an air-tight vessel in the cellar, but it removes all the stale, microbe-laden air, and exhausts it outside the building.

A touch at an electric button is all the effort required.

The TUEC has the endorsement of physicians because of its sanitary value—architects approve it because of its simplicity, efficiency and scientific construction—owners of public buildings and private homes are enthusiastic over its convenience, dependability and extremely moderate price.

The TUEC can be installed in any building, old or new, whether wired for electricity or not.

CORRESPONDENCE SOLICITED

Dau Publishing Co., 40 W. Thirty-third St., New York City

A BOUT two years ago we opened an office in Rochester to give our customers in the Western part of the State the best attention possible. Since opening this Rochester office we have had to take additional space owing to an increase of business.

Building and equipping greenhouses from start to finish is our specialty. We have been doing this exclusively for over half a century, and have built in every State in the Union.

We would be pleased to send you our catalog on application.

If you are thinking of building send for our representative in Rochester and he will be glad to call and talk the matter over.
